Figure 1

A black and white photograph of a two-story building with a gabled roof. The image shows the structural frame, including the roof trusses, walls, and floor joists. The building has a central entrance on the ground floor and a staircase leading to the upper floor. The roof is supported by a central vertical post and side posts. The building is situated on a flat, open area.

Planning and Management of the Mississippi River 1960-1970

Mississippi River

1960-1970

Planning

- 1. The Mississippi River Commission was established in 1909.
- 2. The Commission's first major project was the construction of the Old River Diversion.
- 3. The Commission also worked on the construction of the New River Diversion.
- 4. The Commission's work on the river was continued by the Army Corps of Engineers.
