

N^o 69. *Utsyn från Replot kyrkoby med kyrkan
i fönsten* okt 1922
foto. Ant. Sjögren

A black and white photograph of a rural landscape. In the foreground, there is a grassy field with a small pile of dirt or hay. A wooden fence runs across the middle ground, separating the field from a row of small, simple wooden buildings. In the background, a larger, more complex building, possibly a church or school, is visible among other houses and trees. The sky is overcast.
